Description:

Westcott Sheet Backgrounds are available in two size, 10'x12' and 10'x24'. A six-inch rod pocket is sewn into each background along the top edge so they are ready to hang. Optional: Westcott Item #7005, Background Storage Bag, is available for quick storage and easy portability.

Product Contains:

- (1) Sheet Background
- (1) Clear PVC Storage Bag

Instructions:

Random wrinkle patterns on backgrounds are very attractive and may be achieved by unfolding the background and stuffing it into a background bag. If a smooth background is desired, a steamer may be used to reduce wrinkles. NOTE: When using a steamer do not saturate the background as this could cause the colors to run.

Caring for your Westcott Muslin Background:

Westcott backgrounds are constructed from cotton/poly blend muslin. They are hand painted with an acrylic-based paint. **Backgrounds are not flame retardant.** Backgrounds should not be machine-washed or dry-cleaned. **Care should also be taken not to get the background wet.** To prevent the transfer or shedding of color we recommend spraying the background lightly with a fabric protectant spray. Wait until the first coat is entirely dry and then spray again. This will help with the cleaning up of dirt and spills along with reducing the transfer of color. Allow the background to dry thoroughly before using or storing.

To avoid color fading do not store in direct sunlight.
